

# Amaranthus Carnival

## **Sowing :**

Sow early spring at 21 -24C (70-75F) in a good seed compost. 2mm (1/16in) deep and keep the soil damp but not wet. Sealing in a polythene bag after sowing is helpful.

## **Growing :**

Gradually acclimatise to outdoor conditions for 10-15 days before planting out after all risk of frost.

## **Flowering period :**

July-frost
