

Sunflower Autumn Beauty

Sunflower Autumn Beauty is a stunning mix of warm earthen shades of large multi-headed 4-8'' (10-20 cm) blossoms on 6-8 ft (1.8-2.4 m) strong stemmed plants. Makes an ideal cut flower as well as an ideal background planting for borders in the garden. Autumn Beauty colours are a mixture of reds, browns, mahogany, orange & gold.

Cultivation Advice:

Days To Germination: 14-21 days

Optimum Soil Temp. for Germination: 68-86 °F (20-30 °C)

Planting Depth: 1/4 inch

Spacing seed: 4-6'' (10-15 cm)

Spacing plant: 24-36'' (60-90 cm)

Plant Height: 6-8 ft (1.8-2.4 m)

Light: Full Sun

- Seeds can be started indoors 3 to 4 weeks before last spring frost.
- Or direct-sow seeds outside after all danger of frost has passed to a depth of 1/4 inch. Can be sown as late as 100 days before last frost.
- When seedlings are 2-3'' (5-7.5 cm) high, thin to individual pots. Replant thinned plants.
- Protect from Snails / Slugs whilst young.
- Steadily harden off before planting out after all danger of frost has passed.
- May require staking / support in exposed positions.
