Love Flowers?

Welcome
to Your
Happy Place!

Are you looking for the best flower seeds in the industry for your business? You've come to the right place!

For almost 200 years Benary has been creating outstanding ornamentals. Our breeding activities have developed some of the leading annuals, perennials and potted ornamental plants.

Benary maintains four breeding facilities: in North America, the Netherlands, China, and Germany. This brings us closer to you and your markets.

Our main focus is on developing and selling flower varieties for the professional bedding plant market – bringing beauty to the world.

Known worldwide as the leader in Begonias, Benary's assortment includes some of the industry's most sought after varieties in Pansies, Pentas, Petunias, Marigolds, Impatiens and Rudbeckia, just to name a few.

Our professional quality products are offered to growers through our wide network of distributors and brokers around the world.

Benary's long history as an independent family-owned business has allowed us to live our passion for breeding and to stay inspired by the beauty of our industry.

Our breeding teams strive to continuously develop excellent new varieties in professional seed quality.

We love flowers! Together with all Benaryans we are striving to be the most professional, innovative and personal company in global floriculture.

Thank you for working with us!

I'M
KIND OF
A BIG
DEAL.

Rose Green Leaf

The Ultimate Color Show!

- Super-sized color for any landscape
- Focal point in large containers; baskets or mixes
- A premium product that's easy to grow
- Thrives in full sun to full shade
- Outstanding performance in all regions

Begonia x benariensis F₁ ©

New

BIG DeluXXe
White Green Leaf

Landscapers' favorite for
low-maintenance,
high-impact color!

- BIG DeluXXe begonias are 20-25% larger than BIG
- Eye-catching season extenders in large pots & baskets
- Perfect for large plantings
- Holds up to very cool temperatures once established
- A premium plant for premium programs

Rose Green Leaf

Red Bronze Leaf

White Green Leaf

Red Green Leaf

Begonia x benariensis F₁ ©

The perfect Team

Actual Size

BIG DeluXXe are
20-25% larger
than BIG!

BIG 60-80 cm Height

BIG DeluXXe 80-100 cm Height

You grow them about the same...

- Outstanding germination
- Consistent, uniform plug development
- Start from a large plug (128 or 144) for a fast, easy finish
- Space plants early for better branching
- Finish cool to help tone the plants and reduce stretch

...But in some ways they're different.

- Since BIG DeluXXe is bigger it takes just a little longer to build the plant; for best results, add a week to your finish crop time
- BIG can be grown in anything from a 306 pack to your largest hanging basket
- BIG DeluXXe is best in a 12,5 cm pot or larger

Astilbe arendsii 2

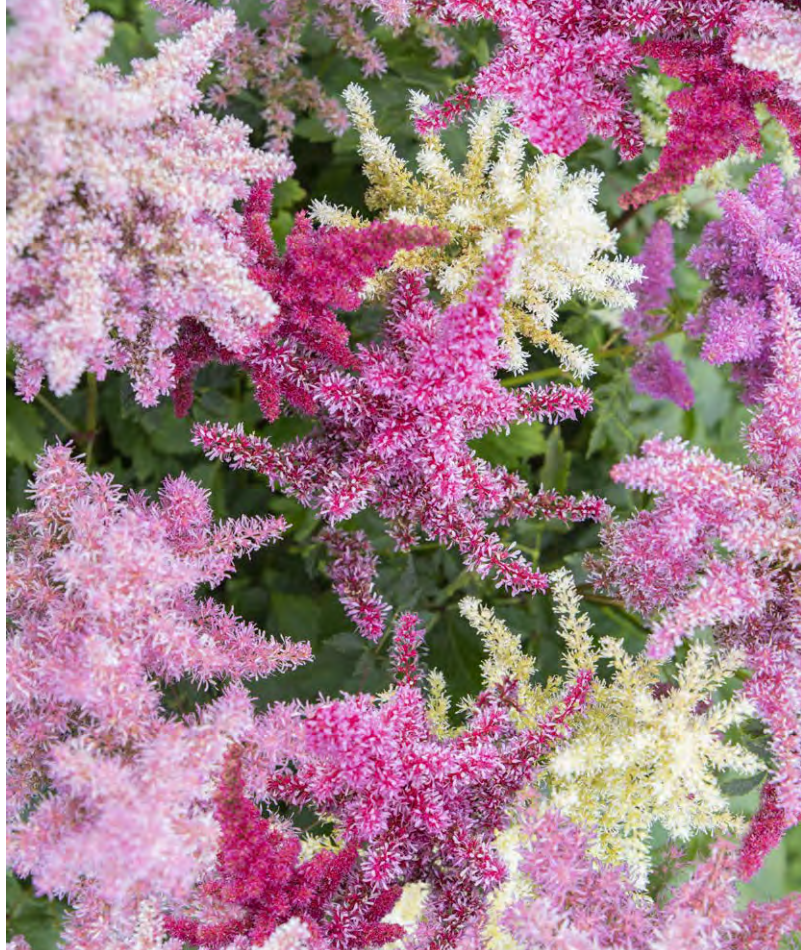

Rhapsody

- Perfect for landscape plantings
- Long slender plumes in intense shades of red, pink, carmine and cream
- Premium seed item for shade
- Quick germination
- Makes a great show in mixed as well as in stand-alone bouquets
- Mixture of vibrant colors
- Plants grow 75-85 cm tall
- Needs vernalization for flower initiation

B7231
Rhapsody

Grande Dame
in Summer and Fall

Eucalyptus cinerea 2

Silver Dollar

- Excellent alternative for Eucalyptus pulverulenta Baby Blue which is currently not available.
- The leaves of Silver Dollar are slightly bigger comparing to Baby Blue
- Excellent for premium container, patio pots and a cut foliage item for floral arrangements
- Young foliage is strikingly silvery-grey and round in form.
- The young round leaves appear to 'grasp' the stem

L9361

Silver Dollar	15-18 wks	50-200 cm	Sun	Raw	-	-

Verbena rigida ☺

Polaris®

ApeX

- Tender porcelain blue tone
- Very elegant
- For borders, mixed combos and fashionable flower arrangements
- Works well in combination with Verbena bonariensis Finesse®
- Long flowering period
- Evergreen with fragrant flowers
- Free-flowering throughout summer
- Great groundcover or border plant that attracts pollinators

Muhlenbergia reverchonii ☺

Rosy

- Densely tufted, clump-forming
- Glossy green foliage
- Reddish pink flowers float above the foliage
- Smaller in stature and softer blooms than Ruby
- Heat and drought tolerant
- Needs warmer temperatures for better flower initiation and lush blooms

Muhlenbergia capillaris ☺

Ruby

- Amazing pink colored blooms
- Excellent distant effect in mass plantings height up to 70-80 cm
- Highly preferred by landscape architects
- Heat and drought tolerant
- Needs warmer temperatures for better flower initiation and lush blooms

Polaris®	12-14 wks	30 cm	Sun	ApeX	-	-

High End Seed Treatments for Your Faster Turnaround

Seed Technology by Benary

The Cutting Edge

We are committed to make your products easier to grow and more profitable for you.

Seed technology by Benary helps YOU to:

- Increase your yields
- Reduce production costs
- Improve vigor
- Produce full, uniform plug trays
- Plan reliable production
- Gain sustainable, environmentally friendly inputs

BeGreen Seed

Seed Technology by Benary at a Glance

- **ApeX**

Individual (variety related) seed enhancement. Ensures optimum germination and excellent seed quality.

- **BeGreen**

Chemical and microplastics free seed treatment

- **Coating**

Ensures better seed placement and sowing ability

- **Pelleting**

For easy sowing and controlling the number of seeds per cell

- **Multipelleting**

Pellet contains several seeds

- **Priming**

For faster germination and higher uniformity

BeGreen Seed Technology means:
Chemical and microplastics free Seed
Treatments by Benary

Seed Technology by Benary

“BeGreen” Seed Priming and Pelleting

Your Advantages:

- Faster germination
- Higher uniformity
- Easier sowing ability
- Better visibility of seed
- Enhanced control of seeds per cell
- Higher yields
- Improved cultivation efficiency
- Increased profitability

BeGreen Pelleted Seed

- BeGreen pelleted seed is free of chemicals and microplastics
- Easy sowing
- Increased profitability
- Better controlling of number of seeds per cell
- BeGreen pill with new formula
- Excellent visibility of green pellet on soil

Merry Berry Gaultheria

- Stable germination – less susceptible in growing conditions
- BeGreen pill with new formula
- Available as BeGreen Pelleted Seed
