What's New for 2022?

RELECTING ON THE PAST YEAR, everything changed as soon as we published our 2021 catalog. It was the first time we launched new varieties without supporting exhibitions. No CAST, no Cultivate. Fortunately, we expanded our presence in the university and grower trial gardens and had a robust plant sample program for broker sales representatives. We rolled out the new varieties via video and virtual events and Zoom calls. Now we are ready for a brave new world! We are taking what we did last year to the next level and keeping a two-pronged approach – preparing for in person and virtual while looking at more ways to engage and excite our customers. Hope to see you this summer!
