

DRACAENA STEUDNERI

African SunshineTM Series

EMERALD

SUNRISE

MOONLIGHT

SOL

NEW

MOONLIGHT & SOL SETS

Hardiness Zones 10-12

FEATURES

- Beautiful contrasting foliage colors
- Nice, tight cane-forming plants
- This species has particularly good indoor performance characteristics. It has been widely used in Europe for decades because it holds up better indoors than almost any other Dracaena.

PRODUCT USES

- Interior
- Combo pots

GROWING INFORMATION

- Plant in peat based media with good h2O holding capacity as well as good drainage (allow them to dry slightly between waterings)
- These plants prefer light levels of 63-73% shade or 2,000-3,000 foot candles

AVAILABLE AS

- Calloused & Bumped Cane (CB)
- Calloused Cuttings (CC)
- Rooted & Sprouted Sets (RS)
